**Students entering ARCH 500 & ARCH 503 studio in autumn:**

I've put together a brief survey to collect information about where students will be studying from in autumn. **Please complete this form by Tuesday, September 1.** <https://catalyst.uw.edu/webq/survey/claudine/395080>. This information will be shared with your instructors to help with course preparation. Thank you in advance for your participation in this!

I also want to follow up on the question asked at the August 12 Architecture Town Hall about books/supplies which need to be purchased in advance. Below is the information received. I've also included the names and email addresses of your instructors in case you have specific questions for them.
