Bachelor of Arts in Architectural Design / Pre-professional

The Department of Architecture offers a Bachelor of Arts with a major in Architectural Design for students who are interested in the professional practice of architecture.

EXPLORING ARCHITECTURE AS A DESIGN MAJOR

Students interested in Architectural Design as a major should consider taking appropriate elective courses before their sophomore year. ARCH 100: Introduction to Architecture is a summer career exploration studio and lecture course open to undergraduate and graduate students and serves as an excellent introduction to the major. College-level art, graphics, and design courses are good preparation for prerequisite classes ARCH 200, 201: Design and Representation I and II. ARCH 150, 151: Appreciation of Architecture I and II and ARCH 251: World Architecture: Non-Western Cultures can be taken in preparation for the prerequisite 300-level architectural history sequence.

DUAL DEGREE WITH CONSTRUCTION MANAGEMENT

The department offers a 5-year dual BA in Architectural Design / BS in Construction Management with the Department of Construction Management; please see the sheet specific to the dual degree program for more information.
