Søren Nielsen
## Vandkunsten Architects
2023 Scan Design Foundation
Distinguished Visiting Professor

Never waste a good crisis:
A Danish Approach to Sustainable Housing

5:30 wednesday, 04 october • 147 architecture hall

Søren Nielsen is the 2023 Scan Design Foundation Distinguished Visiting Professor in the University of Washington's College of Built Environments. Søren is architect and co-owner of Vandkunsten Architects in Copenhagen, one of the country's leading socially and environmentally engaged offices. Responsible for Vandkunsten's R&D activities, Søren is devoted to design strategies for sustainability, in particular resource protection, building transformation and the social, cultural, and aesthetic aspects of reuse. With 35 years of practice, he has been the leading force behind multiple innovative projects for affordable housing, adaptability, circularity, and the use of biogenic materials.

The lecture is free and open to the public.   *AIA Continuing Education credit is available for attendance.*
