ANN BEEMAN ARCHITECTS

November 13, 2026

Job Description: Ann Beeman Architects is seeking an organized motivated UW Architecture student with strong proficiency in AutoCad to provide flex-time consulting services including install PC based AutoCad Lt and help with program set up with x-refs, file management setting up line weights, and page layout for printing output. There is a possible opportunity for part-time project experience. Proficiency in SketchUp a plus.

Pay Rate: $50 per hour

Background Information: Ann has some ability to use the AutoCad Lt drawing program, but no experience with set up. One early-stage institutional project will be moved from our current VectorWorks drawing program into AutoCad.
